

Weybridge, Surrey

Customised System

Utilising Category 7 cable, LAN connectivity and telephone is distributed around the house giving ample hard-wired connection to the network. Additionally, 2 land line telephones are distributed around the house. All these connections terminate into a patch panel simplifying the entire system.

Aerial & Satellite System

Making the most of the best equipment on the market, the Aerial system, comprising of Digital and DAB radio, is distributed around the house in crystal clear quality. Additionally, the Sky HD source is distributed into the aerial system giving both access and channel control in all rooms using an infra-red control system.

Bespoke Cabinet

The living room required something a little more special than just a Plasma TV mounted onto a wall bracket. The customer wanted all the equipment to be hidden when it's not in use. So, using the client's requirements, we designed and commissioned a cherry wood cabinet to be made with an integral plasma lift and custom shelf spacing for the AV equipment to be installed. And as if that wasn't enough, the lift is operated by remote control!

Multimedia

With more and more digital formats being made available and computers becoming increasingly user friendly, a Media Centre PC has become one of the best ways to store and supply digital content on a network. The Media Center PC not only supplies content to the main television but also acts as a server for other computers on the network in order to access multimedia files.

High Definition Sources

Our customers remit was outstanding picture and sound quality. Timed with the advent of High Definition, a Toshiba HD-DVD player and SKY HD box were duly installed giving the exceptional picture quality that the customer required

Ultimate Control

In order to control all of the AV equipment and plasma lift technology, a TSU9600, one of the top and most capable touch screen remotes on the market was supplied. Coupled with competent and bug free programming customised to the client's needs, it forms the central point for total system integration.

Audio Equipment

The equipment installed included high quality Kef KHT3005 Surround Sound Speakers, Kef PSW2005 Sub Woofer emitting deep bass notes and a Marantz AV Receiver SR7001 expertly processing the sound. Together, these provide crisp sound quality with superb crossover effects immersing you in the sound.
